

Alyssa Brown, OTR/L

Occupational Therapist

Profile

I attended Southern Illinois University Edwardsville for my Bachelor's degree in Exercise Science. I then attended Howard University in Washington D.C for my Master's in Occupational Therapy.

I have been an occupational therapist since 2016. In addition to working in hand therapy for 5 years, I have a diverse background working in pediatrics and neurologic rehabilitation. I believe in working with each patient to find what is important to them and creating an individualized treatment plan based on each patient's goals. I value open communication between all members of the care team to help in providing the best care possible. I strive to provide evidence-based care in an educational and friendly manner.

In my free time, I enjoy spending time with family, traveling and being outdoors boating, camping, and hiking.

Education
