Profile

Jenny Clifford, PT, DPT, MPA, ATC joined the IBJI team shortly after graduation from Rosalind Franklin University of Medicine and Science in 2015. She is currently a member of both Sports Medicine and Foot & Ankle special interest groups at IBJI. She is very proud to be a member of an innovative association that supports teamwork and strives to provide authentic and high quality care for the whole patient. Before attending physical therapy school, Jenny worked as a graduate assistant athletic trainer for Grand Valley State University teaching in the Athletic Training Education Program and assisting with the Athletic Department providing care for the men's and women's swimming and diving teams and the women's softball team. Her experience as a collegiate soccer player and athletic trainer give her passion for athletes of all ages and levels of experience.

Originally from Michigan, Jenny enjoys hiking through the woods and being outdoors. She completed her first marathon in October 2014 and loves to learn about nutrition and fitness.

She believes the skyline of Chicago is beautiful and leads to many adventures, but the beach is always better on the other side of the lake!

Education

- B.S. Athletic Training/Pre-Physical Therapy, Trinity International University
- Masters of Public Administration, emphasis in Health Administration, Grand Valley State University
- Doctor of Physical Therapy, Rosalind Franklin University of Medicine and Science
