Profile

Renee Heelan, PT, has committed herself to providing the highest quality of patient care in physical therapy for over thirty years. Renee has been the Gurnee clinic's facility manager since its inception in 2002. She has seen the clinic grow from one Physical Therapist to ten along with bringing on two Occupational Hand Therapists. Renee is passionate when it comes to creating a family-friendly environment for both patients and staff. She takes pride in the close knit relationship she and the other therapists have fostered with the physicians, and the physicians clinical team. This relationship helps Renee and her staff work effectively in a collaborative care model offering open communication between the physician and therapist to facilitate the best possible care for the patient.

Renee takes a comprehensive approach to patient care, treating a wide variety of diagnoses utilizing the most effective and appropriate treatments to facilitate a fully functional recovery. When outside the clinic, Renee enjoys traveling, watching sports, avid Cubs fan and spending time with family and friends.

Education

- BS, Physical Therapy, Northern Illinois University
