Profile

Georgia has worked for Illinois Bone and Joint since 2016 as a Rehab Tech and Patient Service Representative while taking classes at the College of Lake County. The family-like atmosphere and patient care she experienced while working for IBJI sparked her passion for physical therapy. Georgia graduated from Oakton Community College as a Physical Therapist Assistant in July 2020. She loves working with all types of people and orthopedic diagnoses, and believes that each session should be unique and tailored to what the patient needs that day. Georgia enjoys spending her free time being outside, or looking for new ways to stay active. She has had a lifelong passion for running, and most recently has taken up yoga. Georgia is excited to continue to learn and grow as a PTA, while striving to provide excellent patient care.

Education

- College of Lake County
- Physical Therapist Assistant, Oakton Community College
