Profile

Orla Murray PT, DPT has been practicing primarily in the orthopedic field of physical therapy for more than 20 years, most recently specializing in the post operative rehabilitation of knee and hip replacements . She is currently a staff member at the Buffalo Grove location. Orla has a keen interest in the whole person, helping patients on their journey of recovery, utilizing manual therapy, therapeutic exercises and education to assist a patient's return to their highest level of function. With the knowledge that physical activity is important and staying active throughout the generations, Orla believes in using individualized interventions to facilitate a full recovery and continues to encourage physical activity through the years.

Orla was involved in athletics in high school and continues to enjoy running, walking and being outside. Her experience in sports and an interest in the movement of the human body sparked an interest in the orthopedic field. Orla continues to seek educational opportunities to continue her professional learning and growth in order to assist her clients.

Education
